Summary

I am a dedicated Computer Programming student at Izmir University of Economics. I began my studies in 2023 after completing one semester of English preparatory education and successfully passed the language qualification exam within half a term. Following this, I completed a professional internship in the field of software development. I am currently completing my first academic year and will begin my second year in the upcoming term.

Throughout my education, I have pursued advanced, industry-focused training in areas such as .NET development, SQL Server and full-stack web technologies. I aim to leverage my growing technical expertise and hands-on project experience to contribute to innovative software solutions, particularly in R&D-oriented environments.

Education

Izmir University of Economics

2023 – Present

Associate Degree in Computer Programming · GPA: 3.32

- Enrolled in 2023; successfully completed the English preparatory program in half a semester.
- Completed a software development internship within the first academic year.
- Currently finishing the first year; will begin the second year in the upcoming term.

Technical Skills

Programming Languages

C#, JavaScript, SQL, HTML5, CSS3, PHP, Python, Java

Frameworks & Technologies

.NET Core, ASP.NET MVC, Entity Framework Core, Dapper, LINQ, Windows Forms, Bootstrap

Database Systems

Microsoft SQL Server, Azure SQL Database, T-SQL, Oracle Database

Development Tools

Visual Studio, Visual Studio Code, IntelliJ IDEA, Docker, SQL Server Management Studio, Excel, Jira

Architectural & Design Patterns

Layered Architecture (N-Tier), Repository Pattern, MVC, SOLID Principles

Internship Experience

Software Development Intern · Yazılım Marketi, Izmir

February 2024 – October 2024 · 8 months

- Contributed to the development of desktop and web-based applications under the supervision of senior developers.
- Gained practical experience in C#, .NET and database operations.
- Took part in UI design, debugging and minor feature implementation tasks.

- Participated in weekly code reviews and project meetings, improving collaboration and version control skills.

Software Development Intern · İnnosa Yazılım, İzmir

June 2025 – August 2025 · 3 months

- Developed a web-based admin panel for managing application data using Oracle Database.
- Implemented full CRUD (Create, Read, Update, Delete) operations for database entities through a user-friendly interface.
- Designed and executed SQL queries to retrieve and manipulate data efficiently in Oracle Database.
- Integrated backend logic with database operations to ensure data consistency and performance.
- Collaborated with senior developers through code reviews and weekly meetings, improving software development and teamwork skills.
- Gained hands-on experience in database-driven application development and data management workflows.

Certifications

- Windows Forms UI Development and Embedded CRUD Systems (Udemy, 2022)
- Layered Architecture and N-Tier Design in Engineering Applications (Academind, 2022)
- LINQ, Exception Handling, and System Logging in C# (Educative.io, 2022)
- Advanced Transact-SQL and Stored Procedure Programming (Codecademy, 2023)
- SQL Server & Azure SQL for Data Analysis and Optimization (Microsoft Learn, 2023)
- Database Design and Query Optimization with T-SQL (Microsoft Learn, 2023)
- Front-End Development for Engineering Interfaces (Udemy, 2023)
- Git and GitHub for Version Control in Collaborative Projects (BTK Akademi, 2023)
- RESTful API Development using ASP.NET Core MVC (LinkedIn Learning, 2024)
- Software Design Patterns for Scalable Systems — SOLID, GoF (Coursera, 2024)
- Clean Architecture and Dependency Injection in .NET Projects (Pluralsight, 2024)
- Microservice Architecture and Docker Containerization (BTK Akademi, 2024)
- .NET Developer Program (I-Akademi/Microsoft, 2024)
- Developing SQL Database & Querying Data with Transact-SQL (I-Akademi/Microsoft, 2024)
- Anthropic Claude Academy — All Course Completion (Anthropic, 2026)

Languages

Turkish — Native

English — Professional working proficiency (C1)

German — Elementary (A2)

French — Beginner (A1)

Additional Information

Clubs & Volunteering

Active member of Rotaract Club of Konak — involved in community service, youth leadership and international collaboration projects.

Interests

- Playing guitar and composing music
- Basketball
- Music theory and performance
- Exploring new technologies; user-experience-focused side projects
